CLASS

Trinity College and the College of Engineering

Duke University, Durham, N.C.

**Published by the
Duke University General Alumni Association.**

This directory is published by the alumni of Duke University as a special welcome to the Class of 1979. We hope you will find it useful—that it will assist you in getting to know one another.

We also hope that you will find your university experience as stimulating and as productive as have your predecessors. There are some 50,000 of us, scattered to all parts of the world and pursuing all sorts of careers, but Duke is our common bond and the Alumni Association is our lasting link with the University we learned to cherish during our own years on the campus.

You will hear more about the Alumni Association in due course, and when the time comes, we hope you will want to take an active part in its affairs. One of its primary objectives is to make and keep Duke a university well equipped to serve a carefully selected student body in a very special way.

Our best wishes are offered to each of you, along with this directory, for a highly successful and personally fulfilling undergraduate career.

Frederick C. Frostick, Jr. '43, Ph.D. '51
